

# Scream It Like You Mean It

Blessed By A Broken Heart

I found the one thing  
That opens up my mind  
It's stealing all the noise inside  
Shot and bring my world to life

If it's all this right  
Then maybe you should know  
If it's in my reach  
I'll never let it go  
Walk the right road  
Never leave you down  
I'll take you to the place ...  
Scream it like you mean it  
Baby one more time  
My ambition  
To follow my own vision  
Something I could never do without

I'll go the distance  
I'll give all I've got to give  
Find the words that you will fit  
So my soul becomes a part of it

If it's all this right  
Then maybe you should know  
If it's in my reach  
I'll never let it go  
Walk the right road  
Never leave you down  
I'll take you to the place ...  
Scream it like you mean it  
Baby one more time  
My ambition  
To follow my own vision  
Something I could never do without

Walk the right road  
Never leave you down  
I'll take you to the place ...  
Scream it like you mean it  
Baby one more time  
My ambition  
To follow my own vision  
Something I could never do without

Walk the right road  
Never leave you down  
I'll take you to the place ...  
Scream it like you mean it  
Baby one more time  
My ambition  
To follow my own vision  
Something I could never do without
