

# Shut Up and Rock

Blessed By A Broken Heart

Things are finally going my way  
I'm feeling great today  
I can sense a crazy night  
Can you feel it?  
I can feel it  
Friday night is just going to break  
Just trying to wreck my ...  
Not listening to any rules  
It's been great for days

Is that what you want?  
Nobody's going to listen  
You talk too much  
Don't ever make her do it  
Give me a break  
Loosen up  
Get out of my face  
Burning shock and her body just don't stop  
No way  
Shut up and rock  
Hey, hey, hey turn it up louder  
Feed that track till you feel the power  
Hey, hey you know we ain't going to stop  
So make your head  
Shut up and rock yea

Consider yourselves to be so not  
The world raise  
We'll rob you back  
But things are going to change tonight  
Can you feel it?  
I can feel it  
Feel the music as it runs in your veins  
One beast I can't become  
So show you don't ever change  
Need to lose and you'll never be the same

Is that what you want?  
Nobody going to listen  
Is that what you want?  
Nobody's going to listen  
You talk too much  
Don't ever make her do it  
Give me a break  
Loosen up  
Get out of my face  
Burning shock and her body just don't stop  
No way  
Shut up and rock  
Hey, hey, hey turn it up louder  
Feed that track till you feel the power  
Hey, hey, you know we ain't going to stop  
So make your head  
Shut up and rock

Give me a break  
Loosen up

Get out of my face  
Give me a break  
Loosen up  
Get out of my face  
Shut up and rock  
Hey, hey, hey turn it up louder  
Feed that track till you feel the power  
Hey, hey you know we ain't going to stop  
So make your head  
Shut up and rock  
Hey, hey, hey turn it up louder  
Feed that track till you feel the power  
You got to feel the power  
You know we ain't going to stop  
So make your head  
Shut up and rock  
Shut up and rock  
Shut up and rock
