Give Her What She Wants

Blessid Union Of Souls

Had a bad day
But don't walk away
Gotta stop gotta stay
She's waiting for you
All the lies
All the times
That she sat and watched you cry
What if she turned her back on you
Give her what she wants
What she needs
All her hopes and all her dreams
Give her what she asks for
When she's hard to understand
Cause she just wants to please you
And show you that she needs you
So talk to her all the time
And don't run from her feelings
When she shows that she's in love
With you
It's hard
To say
Why you always back away
From her love
And her heart
It's time
You start
To see her pain
When you chase
Those girls with the pretty face
That's far
From love
You'll miss the girl
She was
What she takes
What you break
You make her pay for your mistakes
Gotta see
Gotta know
Gotta love
Gotta hold her tight
Gotta treat her right brother
And you're far away from home
She's sitting there all alone
All you gotta do is pick up the phone
Give her what she wants
What she needs
All her hopes and all her dreams
Give her what she asks for
When she's hard to understand
Cause she just wants to please you
And show you that she needs you
So talk to her all the time
And don't run from her feelings
When she shows that she's in love
With you
Honestly girl
Gotta be

Gotta see
She believes
Gotta practice what you preach
Gotta dig down deep
Gotta see
Gotta know
Gotta love
Gotta hold her tight
Gotta treat her right brother
Give her what she wants
What she needs
All her hopes and all her dreams
Give her what she asks for
When she's hard to understand
Cause she just wants to please you
And show you that she needs you
So talk to her all the time
And don't run from her feelings
When she shows that she's in love
With you
