I Believe

Blessid Union Of Souls

Walk blindly to the light and reach out for his hand Don't ask any questions and don't try to understand Open up your mind and then open up your heart And you will see that you and me aren't very far apart 'Cause I believe that love is the answer I believe that love will find the way Violence is spread worldwide and there are families on the stre et And we sell drugs to children now oh why can't we just see That all we do is eliminate our future with the things we do to day Money is our incentive now so that makes it okay But I believe that love is the answer I believe that love will find the way I believe that love is the answer I believe that love will find the way I've been seeing Lisa now for a little over a year She said she's never been so happy but Lisa lives in fear That one day daddy's gonna find out she's in love With a nigger from the streets Oh how he would lose it then but she's still here with me 'Cause she believes that love will see it through And one day he'll understand And he'll see me as a person not just a black man 'Cause I believe that love is the answer I believe that love will find the way I believe I believe I believe I believe that love is the answer I believe that love will find the way Please love find the way Please love find the way
