## **Light in Your Eyes**

## **Blessid Union Of Souls**

I can't remember the last time that we kissed goodbye all our "I love you's" were just not enough to survive Something your eyes never told me
But it's only now to plain to see
Brilliant disguise when you hold me
And I'm free

I've been thinking and here's what I come to conclude Sometimes the distance is more than two people can use But how should I have know girl
It was time and not space you would need Darling tonight I could hold you and you would know But would you believe

There's a light in you eyes that I used to see
There's a place in you heart where I used to be
Was I wrong to assume that you were waiting for me
There's a light in your eyes
Did you leave that burning for me

Cards and phone calls and photograph pictures of you Constant reminder of all the things you get used to Is there a chance in hell or heaven That there's still something here to build on Or do you just pick up the pieces after they fall But after all

There's a light in your eyes that I used to see And a song in the words that you spoke to me Was I wrong to believe in your melody There's a light in your eyes Did you leave that light burning for me

Should I keep on waiting or does love keep on fading away Fading away

It's been a while since I've seen you so how have you been Did you get my letter I wrote you, but I did not send I tried to call your old number
But the voice that I heard on the phone
I recognized but she told me the number was wrong

There's a light in my eyes but it's too bright to see
And a pain in my heart where you used to be
Guess I was wrong to assume that you were waiting here for me
There is a light in your eyes
Did you leave that light burning for me.
