

# Wait for Tomorrow

Blessthefall

They say that I can change without you  
That I can change without you  
That I can change without you

Those nights I can't sleep.  
I'm stuck here.  
Lost in your dreams.  
I'm stuck in here.

Like why can't I get much better?  
Like why can't I get much better?

So swipe it and take it away  
And never lie to me (never lie to me)  
So swipe it and take it away  
And never lie to me (never lie to me)

The only reason my eyes close  
Is so they open with you by my side.

Like why can't I get much better?  
Like why can't I get much better?

So swipe it and take it away  
And never lie to me (never lie to me)  
So swipe it and take it away  
And never lie to me (never lie to me)

And never lie  
I won't never lie  
I won't, wait for  
wait for, wait for  
I won't, wait for  
wait for, wait for  
I won't, wait for you  
wait for you  
I won't, wait for you  
won't wait for tomorrow

So open your eyes my darling.  
Today's a new day it's like why can't I..

Like why can't I get much better  
Like why can't I get much better  
Like why can't I  
Like why can't I  
Get better...
