

# We'll Sleep When We're Dead

Blessthefall

Let the light shine in  
Because we are not alone  
We are not alone  
Let the light shine in  
Because we are not alone  
We are not alone

We will tear away, we will tear away  
This awful feeling lets start the bleeding  
We will rip away, we will rip away  
All of your doubts this will be the last time that

You ever gonna hurt again  
I'll never sing this song without you (without you)  
Remember the way that it felt  
You never gonna hurt again  
I'll never sing this song  
Remember the day  
Remember

Hide your makeshift hearts  
We're taking aim, we're taking aim  
And we won't be leaving  
Hide your makeshift hearts  
We're taking aim (taking aim)  
And we won't be leaving

We will tear away, we will tear away  
This awful feeling lets start the bleeding  
We will rip away, we will rip away  
All of your doubts this will be the last time that

You ever gonna hurt again  
I'll never sing this song without you (without you)  
Remember the way that it felt  
You never gonna hurt again  
I'll never sing this song  
Remember the day  
Remember

Let your line shine in tonight, tonight, tonight.

All alone is where we've been before.  
All alone is where we started  
All alone is where we've been before.  
All alone is where we started  
All alone is where we've been before.  
All alone is where we started  
All alone is where we've been before.  
All alone is where we started

We'll be testing the martyrs  
(We'll be testing the martyrs)  
and bringing hell and high waters  
(and bringing hell and high waters)  
And we'll be testing the martyrs  
(We'll be testing the martyrs)

and bringing hell and high waters  
(and bringing hell and high waters)
