

Grand Parade

Blind Guardian

Let this game begin, watch, my children, watch me
You've all come to die for this battle is lost
Lost, losin' their minds, losin' their souls
Hush, now hush we don't talk we don't care anymore
I will seal every door we don't care anymore
I summon the Nine now confirm the alignment
Can I get through? Carry on, you fools
Try to break free, when we fail it's lost foreva
When we fail it's lost foreva
It's not real, no reason to be here
No more fear & no more regrets
Don't look back & free yo mind
Stay where you are till the sealin' is ova
Say good bye, my friend
Here's yo promised end
Be a part of the grand parade
Along we're driven on & on, it's a grand parade
We're 1, we're so sorry to say
It's all the same, you will see
On this grand parade, damnation, now join the grand parade
Don't be upset, I will seal every door
Every now & then seal every door
They'll try to awake the misguided
I will seal every door the voices you'll hear
They will claim to be real, it's not true
Now look around we will bring them down
The more I'll show the less you will know
The Nine will frown now see how it grows
Secretly my vision comes true
It's not real you'll hear it, you'll see it
The othaworld, the othaworld, the othaworld appears
Now round & round we all shall lose ground
Now praise, I'm the 1 we will neva fear
We will neva fear, we will neva fear them again
Oh, & here comes the son, the son
He's gone with the shadows along with the stars
No more gods, no more lies
No more gods, no war we'll be free here, we are 1
Our will is strong
No more lies & no more tyrants
It all becomes real when the sealin' is ova
Say goodbye, my friend, here's yo promised end
Be a part of the grand parade along we're driven
On & on, it's a grand parade
We're 1, we're so sorry to say
It's all the same, you will see
On this grand parade, damnation
Now join the grand parade
There is no return, it would be the end
We shall sing, we shall sing praise the day
Void, we don't fear you no more
Mother void you can't enter no more
We don't need any hallows
We don't fear any shadows
Shadows on the wall they're not real
Now, walk in, everyone
Here comes the sun, we will neva fall

We will neva fall, we will neva see him again
Many, we're 1 we're humanized, the time has come
This flesh is truth, this blood is real
The highest cause It's all that we are longin' for
There on the river Styx you'll see, my friend
There on the river Styx you'll see
They've fooled you to take it away
So no more myths, no more bliss
We are holdin' it in our hand
& there is nothin' they can do
& so this battle ends forevamore
We don't fear anythin', nor any otha race
We take control, no longer we act like fools
We're in control
Say goodbye, my friend
Here's yo promised end
Be a part of the grand parade
Along we're driven
On & on, it's a grand parade
We're 1, we're so sorry to say
It's all the same, you will see
On this grand parade
Damnation, now join the grand parade
Drown 1 more time
While we all will say goodbye
Bright, it shines bright
Let us carry 1 the lie
No more lies, all a lie
1 more lie
