

# Majesty

## Blind Guardian

Now the time has come for me to leave this land  
Take my charge with pride sacrifice  
Running and hiding I'm left for the time  
To bring back the order of devine  
Hunted by goblins no Gandalf to help  
With swords in the night  
Oh the last part of the game  
Decision of death and life  
Blood for Sauron they'll call tonight  
The final battle cry

Running and hiding I'm left for the time  
To bring back the order of devine  
There exist no tales and hobbits are crying for all  
Children of death  
I have a dream the things you've to hide for  
Deliver our kingdom and our reich  
Don't fall in panic just give me the thing  
That I need or I kill  
Don't run away for what have I done

Oh majesty your kingdom is lost  
And you'll leave us behind  
Oh majesty your kingdom is lost  
And ruins remind of your time  
Now come back

Oh majesty your kingdom is lost  
And you'll leave us behind  
Oh majesty your kingdom is lost  
And ruins remind of your time  
Now come back  
Run, run, run

Cries Cries in a dark land  
Hear the voice it's cold as ice  
Eyes they are watching  
They look for me but cannot find  
Creature is following no place to escape  
My last steps will find the right way  
Where's the future the call of the blind  
Cause there is none to find  
Watch the sky you see no light  
My weapons burst with fear  
With the howling wolves the nazgul will die  
For all Children of death

Cries Cries in a dark land  
Hear the voice it's cold as ice  
Eyes they are watching  
They look for me but cannot find  
Run Run for the whole world  
It's time you cannot wait  
Lost Lost in a dark world  
You feel the strange but cannot see

Too many battles we carry along from the war

And too many frightens we feel from his law  
For so many victories we're praising so strong  
For so many blood we've lost

Oh majesty your kingdom is lost  
And you'll leave us behind  
Oh majesty your kingdom is lost  
And ruins remind of your time  
Now come back

Run, run
