

Run for the Night

Blind Guardian

There comes the last part and end of our old age
with thunder and lightning
the dark lord is taking the crown of the whole world
his creature will kill me and poisons my soul
to the end I'll fight but I know
that the things that I do are so meaningless - Oh no

I see the hill but it's so far away
I know I can't reach it
but I try it again and again
in my dark dreams he's waysting my last will
how long can I stay here
when the mightiest of all will now

Run for the Night burn away
the times of his fall I've to pay

Visions of darkness prepared for the last strike
and bloodlust their weapons and madness
you see their eyes there's no way out
I'm lost in a dark dream and losing control
to the end I'll fight but I know
that the things that I do are so meaningless - Oh no

I see the hill but it's so far away
I know I can't reach it
but try it again and again
in my dark dreams he's waysting my last will
how long can I stay here
when the mightiest of all will now

Run for the Night burn away
the times of his fall I've to pay

You see them running in the shadows of the night
It is not what it used to be
they've been scared and they've been anxiously tonight
you them running with the wind they run for the night
They run for the night
They run for the night

Run for the Night burn away
the times of his fall I've to pay
