

# The Last Candle

Blind Guardian

Guardian, Guardian, Guardian of the Blind (4x)  
Have you forgotten him

Far from the land  
where the sun is born  
down in the wood "Caladon"  
Do you know that place  
where the light is never seen  
and all hopes are turned  
by the final cry  
Turned to Stone (4x)

Whispering tunes in the wind  
all hopes are gone with the night  
when the old man will never come back  
remember his words and his songs  
And we see the raven flying in the distance  
but no wizard's singing his song

Somebodies out in the night  
I fly in time  
the last candle will burn  
there's hope for everyone  
when the last candle burns high  
oh it's time for life

The elves and gnomes have to hide  
when the moon is showing it's face  
and raging orcs will set their traps  
and all forests will burn  
they hate green trees  
and love the dark  
they don't understand  
that they're caught and left alone  
they feel the magic in the wind  
they just fear the old man's song

Somebodies out in the night  
I fly in time  
the last candle will burn  
there's hope for everyone  
when the last candle burns high  
oh it's time for life

Corrupted old gnome  
betrayed of all  
you know so much about all  
what is your price?

"Too much, too much  
you cannot pay with your silver and your gold  
there's just a little chance to save the wizard's life  
there's just a little chance for all you fools  
now pay"

And so I walk across the land  
and hope to hear the wizard's song

Somebodies out in the night  
I fly in time  
the last candle will burn  
there's hope for everyone  
when the last candle burns high  
oh it's time for life  
(2x)

Somebodies out there  
I feel there's somebody  
Somebodies out there  
I feel there's somebody
