

# Thorn

Blind Guardian

A black swan  
Is born that night  
The misty pond  
(Has) got a new king  
Got a new king  
So what can we do  
With our lives  
When it all begins  
It's hard and  
It's cruel  
Will grace die in pain?  
Will light ever rise again?

I'm trapped in darkness  
Still I reach out for the stars  
I'm moving in silence  
I leave it all far behind

Oh at dawn  
I'll face the edge of thorns  
Oh at dawn  
I'll pray at the edge of thorns  
Oh at dawn  
I'll face the edge of thorns

Let us march on  
To the fields of sacrifice  
(I'm) wondering why  
I'll carry on  
Will I betray myself  
To rise

In the silence  
It's time to explain  
(And)  
Search for truth in lies  
Useful lies  
Needless love's damned

What can we do with our lives  
When it all begins

Oh at dawn  
I'll face the edge of thorns  
Oh at dawn  
I'll pray at the edge of thorns  
Oh at dawn  
I'll face the edge of thorns

Come follow me  
And you will see  
How it will be  
When all the pain is gone away

Oh at dawn  
I'll face the edge of thorns  
Oh at dawn

I'll pray at the edge of thorns  
Oh at dawn  
I'll face the edge of thorns

Let us march on  
Though there's no hope at our side  
Let us be brave  
Though by glory we are denied  
But  
Don't you think  
It's time for us  
To bring to an end  
Come play the song of death  
The wisdom in us both  
Will make it  
Special guaranteed  
Play the song of death

I'm lost in the depths of his eyes  
I can't flee  
Inner pain caused insanity  
It's deep within  
The fear and the hunger  
Enslaved and denied  
By my love and my enemies  
I'm the illgotten son

Oh at dawn  
I'll face the edge of thorns  
Oh at dawn  
I'll pray at the edge of thorns  
Oh at dawn  
I'll face the edge of thorns
