

For My Friends

Blind Melon

I remember we used to sit out back and drink until the morning
light
Always bummin' smokes and talking trash about the pleasure we h
ad
Summers come and gone
And the winter needs a song
And I guess I keep movin' along in a ride that I have in my hea
d
Ride that I have in my head

Oh we used to drop some pills and sing til we lose our voice
Chasing our dreams, we tried to put em' in a bag and save em' f
or another day yeah
Oh I feel, these memories are real
Times you can't steal
For the love that I have for my friends
Love that I have for my friends

I just can pretend I need you
You ain't no other love I never had
Soon you will find my log
Its a beat that will never stop
Its the loneliest time apart

Love that I have for my friends
Love that I have for my friends
Love that I have for my friends
Love that I have for my friends
