For My Friends

Blind Melon

I remember we used to sit out back and drink until the morning light Always bummin' smokes and talking trash about the pleasure we h ad Summers come and gone And the winter needs a song And I guess I keep movin' along in a ride that I have in my hea d Ride that I have in my head

Oh we used to drop some pills and sing til we lose our voice Chasing our dreams, we tried to put em' in a bag and save em' f or another day yeah Oh I feel,these memories are real Times you can't steal For the love that I have for my friends Love that I have for my friends

I just can pretend I need you You ain't no other love I never had Soon you will find my log Its a beat that will never stop Its the loneliest time apart

Love that I have for my friends Love that I have for my friends Love that I have for my friends Love that I have for my friends
