

Hypnotized

Blind Melon

What would you do if I told you
You wouldn't have to worry anymore
Throw all your scars in the ocean.
Sink to the floor and disappear forever

Dreaming that's got me by this far
Without it I'd be lost in the wind
Some days I can't get out of my own bed
Others I play along instead

It's been a long time since I forgot about all my crimes
Walk away from all that drags me down
Soon I think I'll get hypnotized
And start a new life

No long delays, don't hesitate, no complicated scenarios
Let's get right on down to the point
Don't hold me down, right to the ground, let's get unwound and
lose that frown
So much more than we live for
You got fast forward through all of the bullshit times
You got to clear out the dust for room to breathe

Stay away from all negativity
That'll bring you down

Don't let the good sink in too deep in your soul
You've got to get outside
It's never too late to make a change in your life
And to feel alright

You've got to get rid of the old
And bring the new right on in
Don't pretend
Oh give in
And just get it done
