

## Make a Difference

Blind Melon

I've got peace on my mind a pistol full of insistence  
Enough blood to fill a lake, but does it make a difference?  
Tolerance was the sermon  
No matter how dubious  
The fundamental thinking just turned so malicious

There's a few people spinning gold  
Some just try to save their soul  
But I wonder what to do  
Money bills and secret guns  
I know i can't help everyone  
But I can take on one or two  
That's what I'll do

Ive got to pick a god so many of them to witness  
Did I follow the right one?  
Does it make a difference?  
Inside there's a substance  
Fuel for my pennance  
The whole world is hurtin' bad  
Can i make a difference?

There's a few people spinnin' gold  
Some just try to save their soul  
But I wonder what to do  
Money bills and secret guns  
I know i can't help everyone  
But I can take on one or two  
That's what I'll do

It's beautiful in the world  
It's beautiful in the world  
Yeah

A few people spinnin' gold  
Some just try to save their soul  
But I wonder what to do  
Money bills and secret guns  
I know i can't help everyone  
But I can take on one or two  
That's what I'll do
