

Die Buying

Blindside

Tempting life
Won't come and beg for the last time
It's already ours we just came here to claim it
And we are not paying a dime
In the street you'll find us
Vulnerable but lit up like a cigarette
Celebarating thankxmas
Without a regret

Can't buy this freedom
With another slogan
With another lie

Can't buy this freedom
With another gadget
Buy or die

So what do you say, let's stay
And not run away
You can't buy this freedom
With another slogan
With another lie

Tempting lie
I feel like houseclimbing
Down the street
Newfound freedom
Making wings grow out of my feet
In these streets we live
In these streets we die
Fear is expensive
And freedom is so free that it's hard to buy

Can't buy this freedom
With another slogan
With another lie

Can't buy this freedom
With another gadget
Buy or die

So what do you say, let's stay
And not run away
You can't buy this freedom
With another slogan
With another lie

Yeah, Yeah

Can't buy this freedom
With another slogan
With another lie

Can't buy this freedom
With another gadget
Buy or die

So what do you say, let's stay
And not run away
You can't buy this freedom
With another slogan
With another lie
