

# Monster on the Radio

Blindside

We hold our flag high with blisters on our hands  
We scream our lungs out  
Words we don't understand  
Hey radio did you play my song?  
Did you say my name?  
I couldn't hear I might be wrong  
I could be wrong

And still we're turning it up

I'll give everything I have and more  
To the monster on the radio  
A star shines brighter than before  
When you're a monster on the radio  
And I scream and I fight  
and they chew and they spit me out  
I'll give everything I have and more  
To be a monster on the radio

Frequency unclear  
Do I hear myself through the static and noise?  
My heart is still beating  
But I can't hear it over the sound of my own voice  
This is my own voice

And still I'm turning it up

I'll give everything I have and more  
To the monster on the radio  
A star shines brighter than before  
When you're a monster on the radio  
And I scream and I fight  
and they chew and they spit me out  
I'll give everything I have and more  
To be a monster on the radio

Frequency unclear  
Do I hear myself through the static and noise?

Hey radio did you play my song?  
Hey radio  
Hey radio did you play my song?  
Hey radio

I'll give everything I have and more  
To the monster on the radio  
A star shines brighter than before  
When you're a monster on the radio  
And I scream and I fight  
and they chew and they spit me out  
I'll give everything I have and more  
To be a monster on the radio
