

The Endings

Blindside

So you think that I could ride
This wave all the way through
So you think that I could just stand here
With nothing to hold on to
I can feel it, it's breaking, it's coming down
It's crashing down from up high
I can't see it, it's too big too fast
I've already shut eyes

The endings are all right?
The endings are all good?

What if I could reach inside
To take a deeper breath to see it's all right
What if I saw you at my side

I know I was made to go up this mountain
Every bone in my body tells me it's right
I know I was made to go up this mountain
But I'm getting scared of heights
Still I'll sleep to the sound of the monsters roar
Cause I'll sleep next to your heartbeat forever

The endings are all right
The endings are all good

What if I could reach inside
To take a deeper breath to see it's all right
What if I saw you at my side
