

For This Love

Blindspott

Let's all bleed
I'll take the blood
As they pass you around
Take the best of me
And I will die
Before I let you down

Stay with me
I am the hurt
That you don't want to know
As long as you're with me
And we're here
We're not dying alone

I will die
Away from you
Let you down

And for this love I
Am blessed with the curse of you
I would give my last breath for
This love
For this love
For this love

This love
...love

And for this love I
Am blessed with the curse of you
I would give my last breath for
This love
For this love
For this

...love
...love

For this
..love

This love
