

And now for my next number, I'd like to return to the classic

This time when I feel my self up in her
Even though I don't want to
And one side of me says kill her
But that just wont do
So I say we're through
So I say we're

Stop and stare what the fuck you don't know me
Stop and stare what the fuck you don't know me
I DON'T KNOW WHY
Stop and stare what the fuck you don't know me
Stop and stare what the fuck you don't know me
I DON'T KNOW WHY

I think its time to pack your things lets go
To a place where we both know
And don't worry, I'll drive real slow
Spend some time before we go
Spend some time before we go
So I say we're

Stop and stare what the fuck you don't know me
Stop and stare what the fuck you don't know me
I DON'T KNOW WHY
Stop and stare what the fuck you don't know me
Stop and stare what the fuck you don't know me
I DON'T KNOW WHY

Get up in your face with the sickness the quickness
Dialect, I inject
We'll be up talking, kissin' all night
To make you feel right
So I say we're through
It doesn't sink in to you
Oh, please don't make me
LIKE YOU

But that just won't do
So I say we're through

Stop and stare what the fuck you don't know me
Stop and stare what the fuck you don't know me
I DON'T KNOW WHY
Stop and stare what the fuck you don't know me
Stop and stare what the fuck you don't know me
I DON'T KNOW WHY
