Pray For Me

Blindspott

If I lay still Will they hear me? If I lay here Will they hurt me? No...no No No Nothing that you gave You took away from me You will hold onto everything But dying to be free You would raise your hands You would pray for me But you won't raise the hands That you gave to me I won't move until they find me If I stare too long Will this blind me? No...no Pray for me Nothing that you gave You took away from me You will hold onto everything But dying to be free You would raise your hands You would pray for me But you won't raise the hands That you gave to me

I stand alone Pray for me
