

## Remember to Forget Me

Blink-182

Throw my wishes in a fountain  
Deep down under where I found them  
Don't let go, I'll probably drown in them  
Three, two, one, but who's counting them?

Hey mom, I'm on my own  
Scared to death and far from home  
Can you imagine that, imagine that, imagine that?  
You know I'm bad at that, bad at that, bad at that

You left pieces of me along the side of the road  
Right after you said you'd never leave me alone  
Found myself on the wrong side of the door  
I'll come in if you let me

I got a song in my head you played me over the phone  
Left a light on upstairs but there ain't nobody home  
All the nights that you end up all alone  
Remember to forget me

This is hard, I'm one step off  
I call but you're gone, I'm here but you're not  
We both made a left, it don't make it right  
I'm trying to forget but remember the times

Hey mom, I'm on my own  
Scared to death and far from home  
Can you imagine that, imagine that, imagine that?  
You know I'm bad at that, bad at that, bad at that

You left pieces of me along the side of the road  
Right after you said you'd never leave me alone  
Found myself on the wrong side of the door  
I'll come in if you let me

I got a song in my head you played me over the phone  
Left a light on upstairs but there ain't nobody home  
All the nights that you end up all alone  
Remember to forget me

I got a song in my head you played me over the phone  
Left a light on upstairs but there ain't nobody home  
All the nights that you end up all alone  
Remember to forget me
