

# Can't Get Rid Of This Feelin

Bliss n Eso

I'm not leavin, I'm not leavin, I'm not leavin.

Check it out, yeah, it's that moment when you're lost in the feeling.  
You ownin it, you're on top of the building.

You front row with your favorite show.

You love it loud and you wanna let your neighbors know that right now, we run the town.

It's our chance to dance like no one's around.

Love like this come by with a buck better,  
did hard for your diamond in the rough.

Like me, my girl, and a timeless classic.

At peace with the world when the vibe is magic.

Close your eyes, vision the scene and for a single moment, you'll be livin' the dream.

And even though it might take a while, when your song comes on, bet it makes you smile.

Laughin' like Martin run and tell that shit. Fact is, right now, nothing else matters, madness.

I can't get rid of this feelin, I can't get rid of this feelin.

So you know I ain't leavin, cause i'll be standin by you.

I can't get rid of this feelin, in a world full of angels and demons.

Oh, you know I ain't leavin.

It's times like this that sets me off, it's when I get the feelin' that lets me lost.

The tune's got me so in the mood, it's like my feet just seem to know what to do.

And I do set off that energy shift when I'm set adrift on memory bliss.

And that ship takes me like I'm just a passenger, sendin' me back like a flux capacitor,

into a state where you'll dance if it's rainin', then jump with a perfect land on the pavement.

For me, it's a grand in the basement, or the hairs on my next standing ovation.

Feelin' like a kid, back when I could win at this, back when I had the world at my fingertips.

But I still got the world at my fingertips, every time I feel like this shit is limitless.

I can't get rid of this feelin, I can't get rid of this feelin.

So you know I ain't leavin, cause i'll be standin' by you.

I can't get rid of this feelin, in a world full of angels and demons.

Oh, you know I ain't leavin. I'll be standin' right here.

This ain't no accident man, we, we stayin' here.

This ain't no accident man, we, we stayin' here.

This ain't no accident man, we, we stayin' here.

Oh, shit, I just fell in the vibe y'all.

This thing here is a hell of a right call.

It's the moment when the stars align,

it's the times with your girl when your heart's combined.

The harmony sings, and what it brings is a amazing,  
propelling me back to relive the equation.

It's the wind at the last strike of the cough,  
when you caught the feeling you got right when it stopped.

Yeah, we live life like minutes are hours and it feels  
like there's somethin religious about it.  
But, this ain't church and I ain't preachin.  
This one hurt and I ain't leavin like kids at a party,  
crew round the barbie. That old couple that dance at the yarry.  
Touch the lasers, marry the beat and carry belief til you're happy to be fre  
e.

I can't get rid of this feelin, I can't get rid of this feelin.  
So you know I ain't leavin, cause i'll be standin by you.  
I can't get rid of this feelin, in a world full of angels and demons.  
Oh, you know I ain't leavin. I'll be standin by you.

We don't, we don't, we don't stop, we don't stop.  
We don't, we don't, we don't stop, we don't stop.  
We don't, we don't, we don't stop, we don't stop.  
We don't, we don't, we don't stop, we don't stop.

This ain't no accident man, we stayin here.
