

Never Die

Blitz Kids

I never thought that this could ever break our silence
This is more than what I ever thought it'd be
It comes in waves to break the boundaries of our vices
All our fears are kept desires and our dreams

As time lays ache
Our bodies break
But legend outlives all

Scream it to the sky
We'll never die, We'll never die

Oh brother, you were born a champion in no-one's eyes
And sister, you were never bred for something more
You never had the means to trust your own convictions
But in this life you learn to fly or 'cede to fall

Scream it to the sky
We'll never die, We'll never die
Scream it to the sky
We'll never die, We'll never die

I know that you are void of hope and all direction
But look upon yourself tonight
There's a voice in you that leads without confliction
There's a light you cannot see yet

Scream it to the sky
We'll never die, We'll never die
Scream it to the sky
We'll never die, We'll never die
