

## Fatigue

Blitz

Living your life by the minutes on your clock  
Forgetting reality by a mental block  
You can't stand this and you can't stand that  
You also know where it's been but never where it's at  
All you factory girls and you factory boys  
Whose been winding you up like cheap little toys?

Don't you know you suffer from metal fatigue  
Rust never sleeps in the minor league  
This is the problem of iron and steel  
When you are a cog in a clockwork wheel  
You've set your own course down a well trodden path  
And made you a cog when you want to laugh

I've got metal fatigue
