

Propaganda

Blitz

Defending this corruption on which you are sat
You tell me what to think, you tell me this and that
`Freedom is O.K. you scum` but make sure it`s never used
In your defence of liberty I always stand accused

And your shadow in the sun always give a shock
While the hate mail rises like some kind of moral rock
Propaganda, you scare me to death
Propaganda, you scare me to death

I know you want to lock me up and see justice done
You say get the army in, you hope that day will come
You will give me something to think about Right between my eyes
Then you`ll see your freedom the day that freedom dies

I can`t see many reds underneath my bed
But the fascists in the letter-box are messing up my head
You tell me I`ve got rights, the same for rich and poor
But you`re behind the police when they`re knocking down my door
