

Might Find It Cheap

Blitzen Trapper

There's a lot of cheap talk about the road I take
There's a lot of bold horses gettin'' stuck at the game
There's a lot of mean boys with some time to kill
There's a lot of good women gettin'' stuck with the bill

So won't you let this foolish feeling make you stay
There comes a time when all your leavin'' doesn't pay
This boy is where your heart should be
'Cause you might find it cheap
But you're never gonna find it for free

There's a long legged lady livin'' up on the hill
She got eyes like a cheetah, like a two dollar bill
I take her on down, take her out for a whirl
Then I let her fly free 'cause I know that she will

So won't you let this foolish feeling make you stay
There comes a time when all your leavin'' doesn't pay
This boy is where your heart should be
'Cause you might find it cheap
But you're never gonna find it for free

You can play it your way but you're gonna have some hell to pay

'Cause when the dogs come barking at your back you better watch
what you say
'Cause a day without a night is like a child without no fight
And all the driving shining lights won't help you see
That you might find it cheap
But you're never gonna find it for free

There's a lot of cheap talk about the road I take
There's a lot of bold horses gettin'' stuck at the game
I'd give you my heart but I know it's too late
And I ain't got the time to sit around here and wait

For you to let this foolish feeling make you stay
There comes a time when all your leavin'' doesn't pay
This boy is where your heart should be
'Cause you might find it cheap
But you're never gonna find it for free
