

# I Don't Want U

Blonde Redhead

I don't want you I don't need you  
I wanna know...  
I wanna know how it'd feel  
without a single confrontation

I don't want you I don't need you  
I wanna know...  
I wanna know how it'd feel  
without a single confrontation

I say, you're good  
Guide you, got you by  
maybe, way out wish you  
Why could we be to be all?

I don't want you I don't need you  
I wanna know how you feel in a confrontation
