

A Rose by Any Name

Blondie

Black and Red looks so good on you
And your walk makes me believe you
Lipstick rings are on my fingers
Want the night to always linger
Linger, linger, linger...

If you're a boy or if you're a girl
I'll love you just the same
Wherever you go all over the world
A rose by any name
If you're a boy or if you're a girl
I'll love you just the same
Wherever you go all over the world
A rose by any name
A rose by any name
A rose by any name
A rose by any name

Smoking cigarettes in bed
All the same when we're naked
In the streets they'll never know
Mysteries we'll never show
Show, show, show, show, show, show, show, show...

If you're a boy or if you're a girl
I'll love you just the same
Wherever you go all over the world
A rose by any name
If you're a boy or if you're a girl
I'll love you just the same
Wherever you go all over the world
A rose by any name
A rose by any name
A rose by any name
A rose by any name

(Want the night to always linger)

If you're a boy or if you're a girl
I'll love you just the same
Wherever you go all over the world

If you're a boy or if you're a girl

Wherever you go all over the world
