

# Best Day Ever

Blondie

Heartache, heartache  
Heartache from the best day ever  
Breakup, makeup  
Breakup, this will go on forever  
Breakup, breakdown  
Take a break and we get back together  
Last day, last day  
This is the last day  
We get the best day ever

I hope it's enough to give my love  
To get on with this breakup  
Just leave me your heart as you walk out the door  
I'll keep it on the tub  
And don't turn around if you love me  
You let me be, let me be, baby  
And maybe we'll fight down the line  
If we love ice it won't hurt too much

Don't cry, don't cry  
Tonight, it was the best day ever  
Goodbye, we cry  
We're tired, tired of forever  
Kiss me, miss me  
Cut my, cut my tether  
Last day, last day  
Last day, make it the best day ever

I hope it's enough to give my love  
To get on with this breakup  
Just leave me your heart as you walk out the door  
I'll keep it on the tub  
And don't turn around if you love me  
You let me be, let me be, baby  
And maybe we'll fight down the line  
If we love ice it won't hurt too much

I love my magnet we were taking out of time  
That we should never met, never met, never met, never met  
Thank God we met

I hope it's enough, oh, to give my love  
To get on with this breakup  
Just leave me your heart as you walk out the door  
I'll keep it on the tub  
And don't turn around if you love me  
You let me be, let me be, baby  
And maybe we'll fight down the line  
If we love ice it won't hurt too much  
And don't turn around if you love me  
You let me be, let me be, baby  
And maybe we'll fight down the line  
If we love ice it won't hurt too much
