

What I Heard

Blondie

Same old song and dance
Why do I give you another chance?
Drama every night
I don't wanna fight
Same old story again but if you wanna be my friend it's really
gotta end
Same old story

You told me you were done with her and I believed every word and
now I wonder what I heard
You told me you were done with her and I believed every word and
now I wonder what I heard

The drama won't stop
Said you've called the cops
Police don't care 'cause it's crazy
And you keep calling me
I heard it all before
It's a total bore
The cat got out and he came running back for more

You told me you were done with her and I believed every word and
now I wonder what I heard
You told me you were done with her and I believed every word and
now I wonder what I heard

I told you I'd be cool
Now I feel like a fool
I got sucked into and it's crazy but it won't phase me

It's a total bore
I heard it all before
The cat got out and he came running back for more

You told me you were done with her and I believed every word and
now I wonder what I heard
You told me you were done with her and I believed every word and
now I wonder what I heard

You told me you were done with her and I believed every word and
now I wonder what I heard
You told me you were done with her and I believed every word and
now I wonder what I heard
