

## Bitch Called Hope

### Blood for Blood

All my life I relied on one thing and that one thing fucked me  
up even more  
She is tempting and promises things that'll never happen of tha  
t I'm sure  
Years I've wasted waiting for her to come through for me why wa  
s I so blind  
Waiting innocently as time went on life's gotten worse my resen  
tment's strong  
Now I've smartened up I'm turning my back  
I don't need her I gave her a smack  
She failed me over and over again no surprise there she was nev  
er a friend  
I've been dragging a bitch called hope (a bitch called hope)  
I've been hanging at the end of her rope (a bitch called hope)  
I've been dragging a bitch called hope (a bitch called hope)  
I've been hanging at the end of her fucking rope  
I'd have given her my heart and my dreams  
She then strung me along threw away these years  
Don't let that bitch take you for a ride like she took me  
and took most everyone I know  
So I've kicked the bitch to the curb  
but in the end she's left me a bitter twisted motherfucker  
I've been dragging a bitch called hope (a bitch called hope)  
I've been hanging at the end of her rope (a bitch called hope)  
I've been dragging a bitch called hope (a bitch called hope)  
I've been hanging at the end of her fucking rope
