Call Waiting (John Doe Has The Upper Hand)

Blood Has Been Shed

Tragedy seems to come in a pair of expensive shows

Never notice the disguise until it walks up and slaps you in the mouth

Can't say that is very subtle at all

But who knows, maybe just maybe just.... I might shut you up

Think you can listen for a second

Hope you aren't too bothered or busy

Better do something about that wound

 $lt@\Box^-$ festering your reek of decay and its coming from the inside out

Have I got your attention now?

I've got your attention now

Well it sure took long enough I can spit in those wounds

That might help

Really I'll bet you thought the world owed you a whole lot more

Sorry to push your not buttons it's what I do

Pretty much perfected this after thousands of years

You should savor these moments
