

Cruel Pornography

Blood On The Dance Floor

You move like poetry
You taste like pornography
You're unstable, but you've got a plan
You feed me, you make me bite the hand

Break me down
Break me down
Breaking me down
BREAK ME

Chew me up, spit me out
Throw me up, throw me out
Then we do it, then we do it all over again
It's the hate, that we love
It's the push, it's the shove
Then we do it, then we do it all over again

Chew me up, spit me out
Throw me up, throw me out
Then we do it, then we do it all over again
It's the hate, that we love
It's the bullet, it's the gun
Then we do it, then we do it all over again

You're the drug, I'm the addict
Happy ending turned tragic
You're the monkey on the devils back
You're the needle and I'm the track

Break me down
Break me down
Break me down
BREAK ME

Chew me up, spit me out
Throw me up, throw me out
Then we do it, then we do it all over again
It's the hate, that we love
It's the push, it's the shove
Then we do it, then we do it all over again

Chew me up, spit me out
Throw me up, throw me out
Then we do it, then we do it all over again
It's the hate, that we love
It's the bullet, it's the gun
Then we do it, then we do it all over again

Cocaine in a crucifix
Say your prayers
Take your licks
Face down now
You're turning blue
Spill this hate
From inside you

Chew me up, spit me out

Throw me up, throw me out
Then we do it, then we do it all over again
It's the hate, that we love
It's the push, it's the shove
Then we do it, then we do it all over again

Chew me up, spit me out
Throw me up, throw me out
Then we do it, then we do it all over again
It's the hate, that we love
It's the bullet, it's the gun
Then we do it, then we do it all over again

Chew me up, spit me out
Throw me up, throw me out
Then we do it, then we do it all over again
It's the hate, that we love
It's the bullet, it's the gun
