

Loveotomy

Blood On The Dance Floor

I can live a better life
Without you on my mind
Don't need you to decide
Without you I'll be fine

I should've known something this perfect
Would've been so damn destructive
I can live a better life
Without you on my mind

Put me under, under the knife
Love will be gone when I open my eyes
Sedate me loveotomy
Now you're gone

Leaving memories behind
Erasing you from my mind
Sedate me loveotomy
Now you're gone

I can finally see now
That love really isn't blind
I can finally breathe again
Once your memory has died

I should've known something this perfect
Would've been so damn destructive
I can live a better life
Without you on my mind

Put me under, under the knife
Love will be gone when I open my eyes
Sedate me loveotomy
Now you're gone

Leaving memories behind
Erasing you from my mind
Sedate me loveotomy
Now you're gone

I'm over it, I'm over you
I wished you dead, my wish came true
I'm over it, I'm over you
I wished you dead, my wish came true

I'm over it, I'm over you
I wished you dead, my wish came true
I'm over it, I'm over you
I wished you dead, my wish came true

Put me under, under the knife
Love will be gone when I open my eyes
Sedate me loveotomy
Now you're gone

Leaving memories behind
Erasing you from my mind

Sedate me loveotomy
Now you're gone
