

Mercy

Blood On The Dance Floor

He stalks, she walks
Down the same road
She starts, he stops
Her all alone

6 feet under screaming his name
He laid mercy in her grave

And when her heart stopped beating
And she stopped breathing
That's when he felt most alive

Speak your last words
Speak your last words

She'll rise, they'll die
She's ready and willing
Death in disguise
A mercy killing

6 feet under she screams their names
Taking all the boys to her grave

And when their hearts stop beating
And they stopped breathing
That's when she feels the most alive

Speak your last words
Speak your last words
Speak your last words

(Speak your last words)
(Speak your last words)
(Speak your last words)
(Speak your last words)

Speak your last words
Speak your last words
Speak your last words

And when I start feeding
Mercy you are pleading
That's when I feel the most alive

Murder is this beautiful girl
And I don't give a damn about your last words
