

Nirvana

Blood On The Dance Floor

This is redemption for my people in a song
Here's the key, this is what you need
That will open your eyes
Your heart will never tell you lies
Three cheers now for the hate to demise

A place where it's safe where we can be free
A place we live in harmony
Oblivious to hatred is what you will find my friend
This is the message
To end your suffering

Nirvana (elevate me higher)
Marijuana (To end this suffering)
Nirvana (Awaken your inner soul)
Marijuana (let it go you had control)

This is an ending to all your hate in a form
That will say let yourself awake
I hope my love's sent because it means to me
More than some random stranger's hate

I don't know what you do to me
But you make me feel so happy
You gotta rid your mind of these awful bad perceptions
If you plan on finding self acceptance

Nirvana (elevate me higher)
Marijuana (To end this suffering)
Nirvana (Awaken your inner soul)
Marijuana (let it go you had control)

Have no fear
You're behind the wheel
Love will set you free
Nirvana is your only freedom

I will follow you wherever you may go
To the end of the world
I'm forever yours

I will follow you wherever you may go
To the end of the world
I'm forever yours

Nirvana (elevate me higher)
Marijuana (To end this suffering)
Nirvana (Awaken your inner soul)
Marijuana (let it go you had control)

Have no fear (Nirvana)
You're behind the wheel
Love will set you free (Nirvana)
Nirvana is your only freedom
