

## Party On

## Blood On The Dance Floor

Girls on lock  
Make it drop  
Hand on Glock  
Party hard, never stop  
Haters hate, b\*tches talk  
I'm too trashed to even walk  
I'm too gone to be found  
Heat rising 40oz  
Wrist, ankle, shackle, thighs  
I'll black out till sunrise  
I'll wake up with no regrets  
With eleven girls in my bed  
I'm back up, and going out,  
F\*ck my way through the crowd  
Gotta raise my body count,  
Up and down,  
Scream and shout  
Live it up,  
Party down,  
Whiskey shots till' I hit the ground

There's a party that's going on  
We'll stay up till' the break of dawn  
Neon lights! Bacardi's in my sight  
I'm feelin' good till the drinks are all gone

Live it up, party on  
Drink it down, till' the sun comes out  
Live it up, party on  
Drink it down, till' the sun comes out

I'm the center of attention,  
And I'm tiltin 'em back.  
I've got all my favorite boys, Jose, Johnny and Jack.  
We eat nails for breakfast and whiskey for lunch,  
But it's not my kind of party till they're spikin' the punch!  
Take a hit, take a sip, lose your head, let it drip.  
Dubstep, move your hips, lose your grip, move your feet,  
Leave this track on repeat, take the party to the streets.  
Another boy, another drink, who cares what people think?

There's a party that's going on  
We'll stay up till' the break of dawn  
Neon lights! Bacardi's in my sight  
I'm feelin' good till the drinks are all gone

Live it up, party on  
Drink it down, till' the sun comes out  
Live it up, party on  
Drink it down, till' the sun comes out

Commencing Operation: Get F\*cked up!

My name must taste so good,  
Cause it's always in somebody's mouth.  
At least I know I'm popular,  
Cause all my shows sell out.

From L.A. to New York,  
Parading coast to coast.  
All these whores are just notches on my bed post.

There's a party that's going on  
We'll stay up till' the break of dawn  
Neon lights! Bacardi's in my sight  
I'm feelin' good till the drinks are all gone

Live it up, party on  
Drink it down, till' the sun comes out
