

To Burn

Blood On The Dance Floor

Ain't no getting out
The fire done started
Not even hell
Can out burn us now

Don't send for help
Sending your smoke signals in the clouds
Doesn't matter their voices
Drowned out
By the crowd

Light me up
I like to play with fire
Even when it hurts
I can feel you on my flesh
I like the way you, I like the way you burn

Light me up
I like to play with fire
Even when it hurts
I can feel you on my flesh
I like the way you, I like the way you burn

Light me up

Put me out, put me out
Die in the dust
When you burn me down

Put me out, put me out
Turn me to ashes
When you burn me down

If this is dying
Then I think I like it
So numb with excitement

Please don't bother trying
To pull me out of this
I'm too far in and I fucking love it

Light me up
I like to play with fire
Even when it hurts
I can feel you on my flesh
I like the way you, I like the way you burn

Light me up
I like to play with fire
Even when it hurts
I can feel you on my flesh
I like the way you, I like the way you burn

Light me up

Put me out, put me out
Die in the dust

When you burn me down

Put me out, put me out
Turn me to ashes
When you burn me down

I like the way you burn
Light me up
I like the way you burn
Light me up
I like the way you burn
