

## Berlin

## Blood Orange

Lie down it off  
Fuck around it off  
Frown upside down it off  
Slide around it off  
(Can you feel it in your skin?)

Share the goodness of mercy shall follow me  
Every day of my life, yeah  
Share the goodness of mercy shall follow me  
Every day of my life

Naked hot in summertime is messing with my eyes  
Time flies when the kush is burning in your eyes  
Black skin, white tie, baby came alive  
Just in time to recognize your faded alibi  
Who will listen when you call? Nobody picks up  
Young man, dark tan, blinds tied shut  
Pure, clean, dominant, try your luck

When I felt it in my head  
Just like I remembered it  
Then I got away from it  
Yeah, just for a little bit  
Take a piece out of the tin  
Cut a corner off of it  
Then I got away from it  
Bye, bye  
Bye, bye
