

Box Of Secrets

Blood Red Shoes

It's not that secret, and it's not that far
It's not that secret, and it's not that far

No words to... no words too
No words to... no words too
No words to... no words too

These marks on my chest, were left by you
These marks on my chest, were left by you

No words to... no words too
No words to... no words too
No words to... no words too

It's not that secret, and it's not that far
It's not that secret, and it's not that far
