

## Down Here in the Dark

### Blood Red Shoes

Shut your eyelids now and bite on your tongue  
Under the darkness leave the conversation undone  
All the sentences don't need to be said  
Just keep real quiet we'll pretend that we're dead

I'm so tired, can't open my mouth  
There's a fire, I can't put it out  
I'm so tired, I can't put it out

Moving silent 'til you tell me to stop  
But in your eyes I see you don't wanna turn it off  
All around I feel it getting so close  
Hiding way down here where nobody knows

I'm so tired, can't open my mouth  
There's a fire, I can't put it out  
I'm so tired, can't open my mouth  
This desire, I can't put it out
