Electricity

Blood Stain Child

Run away fly away Dream away slip away Weep away sweep away Reaching out for the stars

All your love All your hate All your sickness your fake Tiny minds I devour Dyin' a little inside

My ambition decisions Illusions my arrows Go high in the sky Challenging Destiny I'm a voice in the desert Do you here me now?

Crawling shadows Haunting my sleep Keep on breathing wake up

Run away fly away Dream away slip away Weep away sweep away Reaching out for the stars

My ambition decisions Illusions my arrows Go high in the sky Challenging Destiny

Crawling shadows Haunting my sleep Keep on breathing wake up

Sudden acceleration Fading gravity Radiant transmissions Electricity Rising up from beyond I can feel your heartbeat Stretching out your hand I knew you'd try to find me

Crawling shadows Haunting my sleep Keep on breathing wake up

Run away fly away Dream away slip away Weep away sweep away Reaching out for the stars

All your love All your hate

All your sickness your fake Tiny minds I devour Dyin' a little inside

My ambition decisions Illusions my arrows Go high in the sky Challenging Destiny I'm a voice in the desert Do you here me now?
