

Over and over
You will see yourself treading the same old path
Destroy the recall
You wonder and wonder
If there's a way to start all over
Fate
An endless whirl of possibilities
Silent sky drowned in blood

Take it in your hands
Take it...
Shattered box find your sky

Open your mind now
Pandora's box, the truth you disavow
Fate
Weaving new lines on the hands of fate
What do you pray for? beyond the time

Take it in your hands
Your choice shapes the future
You can hear and feel this futuristic sound
Universe expands
Unlocked...
Wake up open your mind
Wake up open your mind right now

Bright light or darkness
Salvation or doom is all in your hands
Fate
I gaze beyond the cave, I'm blind no more
What do you pray for? beyond the time

Take it in your hands
Your choice shapes the future
You can hear and feel this futuristic sound
Universe expands
Unlocked...
Wake up open your mind
Wake up open your mind right now.
