

So Much Love / Underture

Blood, Sweat & Tears

More than enough to last a whole life through
And it's all for you

In the midst of all my darkness baby
You know you came along to guide me
You took pity on a lonely man
When you said you'd stand beside me
I'll never forget you
For what you done little girl
I'll never turn my back on you for anyone
'cause I've got

So much loving
I'm a natural man
So much loving
More than enough to last
A whole life through
And it's all for you

When My world was cold and empty
And I needed somebody near me
I called out on the mountainside. Yeah
Knowing full well that you'd hear me
Now to you that might seem like a little thing
But to me, it's like changing winter to spring
But I've got

So much loving
I'm a natural man
So much loving
It's more than enough to last
My whole life through
And it's all for you

Listen to me baby
There's so few women, nowadays
Who understand the soul of a man
And who understand
They're only always taken in
Never are free, of a helpin' hand yeah
I know that you, yes I know that ya, you know what to do girl
Any trouble comes, I know you're bound to see me through

With more than enough
To last a whole life through
'cause I've got
So much loving
I'm a natural man
I want you to understand
I love ya I love ya.
Wooo
