## Let the Stillborn Come to Me

## Bloodbath

Let the stillborn come to me Their souls shall melt into a mass of death Commence the ritual beyond the veil of life Poison my heart, shred my veins

Claws of death Cold light blind my eyes Call upon the undead Blazing inferno Powers that be Dragging me further down...

Fixed on the altar Come forth Belial

Inject Dead blood

Jaws of old Gaping in the abyss Calling out for fettered souls Feeding the darkness This rotting life Death will witness our ordeal
