

## Black Shadows

## Bloodbound

To hell and back they came with stories of a time  
When blood of man was running wild  
The night was dark the moon was gazing in the sky  
Now I can tell you what went by  
Forever trapped inside the gates of hell  
Where the sin is sacred  
Black shadows crawl in the night  
Inside your mind they will haunt you  
Just walk the park or a life in the dark  
Black shadows crawl in the night  
To live forever with a coffin full of hate  
And never see the light of day  
You walk the centuries and still remain the same  
To be a part of Satan's game  
Black shadows crawl in the night  
Inside your mind they will haunt you  
Just walk the park or a life in the dark  
Black shadows crawl in the night  
Black shadows crawl in the night  
Inside your mind they will haunt you  
Just walk the park or a life in the dark  
Black shadows crawl in the night
