

I'm Evil

Bloodbound

I'm evil no, I'm evil no
I reach for the sky
The moment of truth has just begun
A twist of light a burning sun
We settle the score
The day of the reckoning is over
My soul is black forever burned
We can't forgive the unforgiven
Unholy signs of fallen souls
I dance with the beast
In the darkness
I'm evil
Your blood is a feast
In the fading light tonight
I'm evil no, I'm evil oh, I'm evil no
I'm riding the wind
The still of the night I left behind
The break of dawn a new frontier
Awaken the fall
A crack in the sky an open doorway
The race is on I'll show you why
We can't forgive the unforgiven
Unholy signs of fallen souls
I dance with the beast
In the darkness
I'm evil
Your blood is a feast
In the fading light tonight
I'm evil no, I'm evil oh, I'm evil no
I'm evil, I'm evil no
