

I see a face in the wake of night
A dead man walking I'm in his sight
It's getting closer a violent game
Of flesh and bones in a burning flame
Lifeless eyes of an evil spell
Fire, let me take you to hell
Close your eyes get out of his mind
Mesmerized in darkness you're blind
Save yourself give in to your fear
Kill him now the dawning is near
All you will find
In the monstermind
My life is made out of broken dreams
A dark road paved with the silent screams
I crash and burn at the speed of light
I'm paralyzed I can't win this fight
Lifeless eyes of an evil spell
Fire, let me take you to hell
Close your eyes get out of his mind
Mesmerized in darkness you're blind
Save yourself give in to you're fear
Kill him now the dawning is near
All you will find
In the monstermind
Monstermind
Monstermind
Monstermind
Close your eyes get out of his mind
Mesmerized in darkness you're blind
Save yourself give in to you're fear
Kill him now the dawning is near
All you will find
All you will find
In the monstermind
